CARBON FORUM ASIA is Asia Pacific’s leading annual Trade Fair & Conference for Climate and Carbon Finance, Emissions Trading and Low Carbon Technologies.

With its finger on the pulse of current regional and global market developments, it is the platform of choice for Carbon Market professionals and governments to discuss key trends and issues that will shape the future of the Carbon & Energy Market in Asia Pacific and beyond.

What Makes CARBON FORUM ASIA a must attend event

- Asia’s largest conference, exhibition and trading platform for the Energy and Carbon Market Industry
- 3 targeted conference streams bring you the latest developments in Markets & Policy, Energy & Technology, Finance & Mechanisms
- Unique support by leading regional and multinational institutions like the Asian Development Bank, Japan Bank for International Cooperation, State Government of Victoria Australia and the Associated Chambers of Commerce and Industry of India

“CFA 2010, this time had a surprise package, Australia with an impressive conglomeration of active carbon market participants providing deep insights coupled with positive deliberations. With Cancun ahead, it was a fitting opportune that CFA served as a platform for the public and private to meet and exchange views on the emerging post 2012 carbon market. I wish CFA continued success and ensure my support as always!”

Dinesh Babu, CEO, IDEA Carbon

Meet with the entire Carbon & Energy Market Value Chain

- Core Industries
- Banks & Exchanges
- Market Advisors and Analysts
- Low Carbon Technology Providers
- Carbon Credit Offset
- Verifiers and Certifiers
- CDM Project Developers
- Governments & Public Institutions
- Multilateral Organisations
- News Agents & Media
- Academia & Think Tanks

“CFA 2010 was a highly important event to gain a strong understanding of leading regional and global trends in the carbon markets.”

Joseph Jacobelli, Group Director Carbon Ventures, CLP
Arunavo Mukerjee is a Steering Committee member of the UN’s Caring for Climate Initiative. He has extensive experience in coal, gas and renewable power generation. He has been with the Tata group since 1991 and has worked in USA, Europe and Africa. He leads the Tata group’s effort to combat climate change across its 100 companies. He has been a speaker in events organized by IEEE (USA), Confederation of Indian Industries (CII) and UNEP.

Henry Derwent became the President and CEO of the International Emissions Trading Association (IETA) in February 2008. Previously, as International Climate Change Director for the UK Government, he oversaw UK’s role in international negotiations, in the G8 (particularly as Prime Minister’s special representative during the UK G8 Presidency in 2005) and in other forums. Henry has been closely associated with the development of greenhouse gas trading in the UK and Europe from its earliest days. He previously had responsibilities for all aspects of climate change and sustainable energy in the UK as well as for air quality and industrial pollution control.

Dr. Kang Yanbing, graduated from Tsinghua University, is the director of CDM Project Management Center of Energy Research Institute (ERI) under National Development and Reform Commission (NDRC), China. He concurrently holds such social positions as Vice Secretary of the Energy and Resources Comprehensive Use Committee under China Resources Comprehensive Use Association, Vice Secretary of Energy Efficiency and Enterprise Energy Management Committee under China Energy Research Association and member of Buildings Energy Efficiency Committee under China Buildings Association.

Takashi Hongo has been involved in environmental projects such as climate change, water shortage and bio-diversity. He has initiated the Nikkei-JBIC Carbon Quotation Index - the first and only carbon price index in Japan. His current main focus is on climate finance and he has taken the initiative for “GREEN + J-MRV” by JBIC and proposed the Green Finance Alliance. He provides advice on domestic carbon trading systems and bilateral credit. He has contributed to the International Energy Agency, IPCC, UNEP, GLOBE International as well as APEC “Green Growth Green Finance”, as well as written numerous articles.

Gwen Andrews is the Vice President, Power and Environmental Policy for Asia and Oceania of Alstom, a large multi-national supplier of power generation and transmission equipment. Based in Sydney, she is responsible for working with multi-nationals and governments to represent the company’s views on matters of environmental policy and regulation. Previously a high-ranking bureaucrat in the Australian Government, Gwen was the first Chief Manager, Budget, for the Department of Finance and Administration, and has held several other senior posts in the Australian public service.

Martijn serves as a board member of Low Carbon Australia, the Renewable Energy and Energy Efficiency partnership (REEEP); as the Chair of the NSW Greenhouse Advisory Council and as Professor of Climate Change Law at the Australian National University.

Dr. Xuedu Lu is an advisor in ADB. Having joined ADB in July 2010, he provides advice on the Carbon Market program and works on technology transfer and deployment regarding climate change. Prior to joining ADB, Dr. Lu worked in the Government of China and was responsible for research, policy and international negotiations on climate change. He has served the CDM Executive Board (member/alternate) for eight years. He is a visiting professor of Tongji University, Tianjin University and Nanjing University of Information Science & Technology.

At Carbon Forum Asia 2010, we were able to discuss strategies that led to critical progress in making financing forest carbon climate change mitigation activities real, measurable, verifiable, additional, insurable, and secured resulting in institutional investor preference.”

Gabriel Thoumi, Project Developer, Forest Carbon Offsets
